MEMORANDUM FOR:

STAT

SUBJECT : Hill Briefing on Soviet ABM Program

1. CIA participation in the House Armed Services hearing on Soviet ABM breakout potential is set for Friday, 24 February at 1000 in Room 2337 Rayburn Building. The entire package requested by Rep. Courter will be broken down into separate sessions due to scheduling difficulties. Thus, Richard Pearle, DoD, will testify on 22 February at 1000. Tom Graham and Manfred Elmer, ACDA, will testify on 27 Feb at 1400. Appearing along with CIA on 24 February, will be John Gordon, Department of State.

2. Please inform the CIA briefers of the above program. We will depart from the front entrance at 0915. Will a vu-graph machine be needed? What is the classification level of the ABM briefing? It can be TS/Codeword, but we will need to know in advance in order to verify clearances of Hill staffers.
